BIZET Rémi

Recently graduated engineer, seeking a position in AI/Data Science or Software Engineering

INFORMATIONS

- Orleans, France
- bzt.remi@gmail.com
- @rbizet
- +33 781-721-963

EDUCATION

University of Technology of Belfort Montbéliard
(UTBM - French Engineering School)
2019-2024
Engineering Degree in Computer Science - Specialized in AI and Data Science

Jeonbuk National University
(South Korea)
2022
Exchange Year in the Computer Science Department

LANGUAGES

French - Native

English - Fluent

Korean - Intermediate

HOBBIES

- Basketball
- Chess
- Reading

EXPERIENCE

Machine Learning Intern   Feb. 2024 - Aug. 2024

Neutune (Seoul, South Korea)

- Conceptualization and optimization of Machine Learning models

Research Intern   Sep. 2022 - Feb. 2023

Jeonbuk National University Computer Vision Laboratory

- Detection of cancers or fractures using different computer vision models with PyTorch
- Data Collection

IT SKILLS

Java - Kotlin - C++ - C - Python - JavaScript- PyTorch - TensorFlow - SQL

PROJECTS

AI Projects

- Determining house prices using XGBoost model
- Convolutional Deep-Q-Learning agent playing football
- Applied Reinforcement Learning principles by training a PPO agent playing Snake using Stable-Baselines3

Software Engineering Projects

- Chat Application using C++
- Created a virtual Belote (French card game) using C
- Folder and file managing software using C

Android and Web Projects

- Cryptocurrencies trading application with Java/Kotlin
- Food Ordering Application with JavaScript React
